

X12 820 Health Insurance Exchange Related Payments (X306)

X12 Release 5010 Revised May 3, 2024, 9:45 AM

This X12 Transaction Set contains the format and establishes the data contents of the Payment Order/Remittance Advice Transaction Set (820) for use within the context of an Electronic Data Interchange (EDI) environment.

The transaction set can be used to make a payment, send a remittance advice, or make a payment and send a remittance advice.

This transaction set can be an order to a financial institution to make a payment to a payee. It can also be a remittance advice identifying the detail needed to perform cash application to the payee's accounts receivable system. The remittance advice can go directly from payer to payee, through a financial institution, or through a third party agent.

Delimiters ~ Segment * Element > Component ^ Repetition

Interchange Control Header

To start and identify an interchange of zero or more functional groups and interchange-related control segments

Example

```
ISA*00*                *00*                *XX*XXXXXXXXXXXXX  
X*XX*XXXXXXXXXXXXX*260927*0402*^*00501*00000000  
0*X*X*>~
```

<u>ISA-01</u>	I01 Authorization Information Qualifier	■ Identifier (ID)	Required
Code identifying the type of information in the Authorization Information			
00 No Authorization Information Present (No Meaningful Information in I02)			
<u>ISA-02</u>	I02 Authorization Information	Min 10 Max 10 ■ String (AN)	Required
Information used for additional identification or authorization of the interchange sender or the data in the interchange; the type of information is set by the Authorization Information Qualifier (I01)			
<u>ISA-03</u>	I03 Security Information Qualifier	■ Identifier (ID)	Required
Code identifying the type of information in the Security Information			
00 No Security Information Present (No Meaningful Information in I04)			
<u>ISA-04</u>	I04 Security Information	Min 10 Max 10 ■ String (AN)	Required
This is used for identifying the security information about the interchange sender or the data in the interchange; the type of information is set by the Security Information Qualifier (I03)			
<u>ISA-05</u>	I05 Interchange ID Qualifier	Min 2 Max 2 ■ Identifier (ID)	Required
Code indicating the system/method of code structure used to designate the sender or receiver ID element being qualified			
> Codes			
<u>ISA-06</u>	I06 Interchange Sender ID	Min 15 Max 15 ■ String (AN)	Required
Identification code published by the sender for other parties to use as the receiver ID to route data to them; the sender always codes this value in the sender ID element			
<u>ISA-07</u>	I05 Interchange ID Qualifier	Min 2 Max 2 ■ Identifier (ID)	Required
Code indicating the system/method of code structure used to designate the sender or receiver ID element being qualified			
> Codes			
<u>ISA-08</u>	I07 Interchange Receiver ID	Min 15 Max 15 ■ String (AN)	Required
Identification code published by the receiver of the data; When sending, it is used by the sender as their sending ID, thus other parties sending to them will use this as a receiving ID to route data to them			
<u>ISA-09</u>	I08 Interchange Date	YYMMDD format ■ Date (DT)	Required

Date of the interchange

<u>ISA-10</u>	I09 Interchange Time	HHMM format	🕒 Time (TM)	Required	
Time of the interchange					
<u>ISA-11</u>	I65 Repetition Separator	Min 1	Max 1	🔤 String (AN)	Required
Type is not applicable; the repetition separator is a delimiter and not a data element; this field provides the delimiter used to separate repeated occurrences of a simple data element or a composite data structure; this value must be different than the data element separator, component element separator, and the segment terminator					
^ Repetition Separator					
<u>ISA-12</u>	I11 Interchange Control Version Number	🔤 Identifier (ID)		Required	
Code specifying the version number of the interchange control segments					
00501 Standards Approved for Publication by ASC X12 Procedures Review Board through October 2003					
<u>ISA-13</u>	I12 Interchange Control Number	Min 9	Max 9	# Numeric (N0)	Required
A control number assigned by the interchange sender					
<u>ISA-14</u>	I13 Acknowledgment Requested	Min 1	Max 1	🔤 Identifier (ID)	Required
Code indicating sender's request for an interchange acknowledgment					
0 No Interchange Acknowledgment Requested					
1 Interchange Acknowledgment Requested (TA1)					
<u>ISA-15</u>	I14 Interchange Usage Indicator	Min 1	Max 1	🔤 Identifier (ID)	Required
Code indicating whether data enclosed by this interchange envelope is test, production or information					
I Information					
P Production Data					
T Test Data					
<u>ISA-16</u>	I15 Component Element Separator	Min 1	Max 1	🔤 String (AN)	Required
Type is not applicable; the component element separator is a delimiter and not a data element; this field provides the delimiter used to separate component data elements within a composite data structure; this value must be different than the data element separator and the segment terminator					
> Component Element Separator					

Functional Group Header

To indicate the beginning of a functional group and to provide control information

Example

GS*RA*XXXXXX*XXX*20260928*1736*0000*X*005010X306~

<u>GS-01</u>	479 Functional Identifier Code	Identifier (ID)	Required
Code identifying a group of application related transaction sets			
RA Payment Order/Remittance Advice (820)			
<u>GS-02</u>	142 Application Sender's Code	Min 2 Max 15 String (AN)	Required
Code identifying party sending transmission; codes agreed to by trading partners			
<u>GS-03</u>	124 Application Receiver's Code	Min 2 Max 15 String (AN)	Required
Code identifying party receiving transmission; codes agreed to by trading partners			
<u>GS-04</u>	373 Date	CCYYMMDD format Date (DT)	Required
Date expressed as CCYYMMDD where CC represents the first two digits of the calendar year			
<u>GS-05</u>	337 Time	HHMM, HHMMSS, HHMMSSD, or HHMMSSDD format Time (TM)	Required
Time expressed in 24-hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where H = hours (00-23), M = minutes (00-59), S = integer seconds (00-59) and DD = decimal seconds; decimal seconds are expressed as follows: D = tenths (0-9) and DD = hundredths (00-99)			
<u>GS-06</u>	28 Group Control Number	Min 1 Max 9 # Numeric (NO)	Required
Assigned number originated and maintained by the sender			
<u>GS-07</u>	455 Responsible Agency Code	Min 1 Max 2 Identifier (ID)	Required
Code identifying the issuer of the standard; this code is used in conjunction with Data Element 480			
T Transportation Data Coordinating Committee (TDCC)			
X Accredited Standards Committee X12			
<u>GS-08</u>	480 Version / Release / Industry Identifier Code	String (AN)	Required
Code indicating the version, release, subrelease, and industry identifier of the EDI standard being used, including the GS and GE segments; if code in DE455 in GS segment is X, then in DE 480 positions 1-3 are the version number; positions 4-6 are the release and subrelease, level of the version; and positions 7-12 are the industry or trade association identifiers (optionally assigned by user); if code in DE455 in GS segment is T, then other formats are allowed			
005010X306			

Heading

820 Header

To indicate the start of a transaction set and to assign a control number

Example

ST*820*0001*005010X306~

ST-01	143 Transaction Set Identifier Code	Identifier (ID)	Required
-------	-------------------------------------	-----------------	----------

Code uniquely identifying a Transaction Set

- The transaction set identifier (ST01) is used by the translation routines of the interchange partners to select the appropriate transaction set definition (e.g., 810 selects the Invoice Transaction Set).

820 Payment Order/Remittance Advice

ST-02	329 Transaction Set Control Number	Min 4	Max 9	# Numeric (N)	Required
-------	------------------------------------	-------	-------	---------------	----------

Identifying control number that must be unique within the transaction set functional group assigned by the originator for a transaction set

ST-03	1705 Implementation Convention Reference	String (AN)	Required
-------	--	-------------	----------

Reference assigned to identify Implementation Convention

- The implementation convention reference (ST03) is used by the translation routines of the interchange partners to select the appropriate implementation convention to match the transaction set definition. When used, this implementation convention reference takes precedence over the implementation reference specified in the GS08.

Usage notes

- The value in ST03 must be the same as the value in GS08.

005010X306

Financial Information

To indicate the beginning of a Payment Order/Remittance Advice Transaction Set and total payment amount, or to enable related transfer of funds and/or information from payer to payee to occur

Usage notes

- Use the BPR to address a single payment to a single issuer. The BPR contains mandatory information, even though this transaction is not being used to move funds electronically.
- See section 1.10.2.3, Balancing, for information on balancing requirements.

Example

BPR*I*000000000000*C*FWT*CCP*****01*XXX*SG*XXXXX
X*20260927~

- If either Depository Financial Institution (DFI) Identification Number Qualifier (BPR-12) or Receiving Depository Financial Institution (DFI) Identifier (BPR-13) is present, then the other is required
- If Account Number Qualifier (BPR-14) is present, then Receiver Bank Account Number (BPR-15) is required

BPR-01 305 Transaction Handling Code

Identifier (ID) Required

Code designating the action to be taken by all parties

I Remittance Information Only

- ☐ Indicates to the payee that the remittance detail is moving separately from the payment. This also includes when the resulting payment would be zero.

BPR-02 782 Total Payment Amount

Min 1 Max 15 # Decimal number (R) Required

Monetary amount

- BPR02 specifies the payment amount.

Usage notes

- Use BPR02 for the total payment amount for this 820. The total payment amount for this 820 cannot exceed eleven characters, including decimals (99999999.99). Although the value can be zero, the 820 cannot be issued for less than zero dollars.

BPR-03 478 Credit or Debit Flag Code

Identifier (ID) Required

Code indicating whether amount is a credit or debit

Usage notes

- This indicates a credit to the payee's account, and a debit to the Payer's account.

C Credit

BPR-04 591 Payment Method Code

Identifier (ID) Required

Code identifying the method for the movement of payment instructions

ACH Automated Clearing House (ACH)

- ☐ Use this code to notify the issuer that an ACH transfer was requested. When this code is used, see BPR05 and BPR12 through BPR15 for additional requirements.

CHK Check

- ☐ Use this code to indicate that a check has been issued for payment.

FWT Federal Reserve Funds/Wire Transfer - Nonrepetitive

- ☐ Use this code to notify the issuer that a wire transfer was requested. When this code is used, see BPR05 through BPR15 for additional requirements.

NON Non-Payment Data

- ☐ Use this code when BPR02 equals 0 (zero) indicating no dollars are to be paid.

BPR-05 812 Payment Format Code

Identifier (ID) Optional

Code identifying the payment format to be used

CCP Cash Concentration/Disbursement plus Addenda (CCD+) (ACH)

- ☐ Use the CCD+ format to move money. The addenda must contain a copy of the TRN segment.

BPR-12

506 Depository Financial Institution (DFI) Identification Number Qualifier

Identifier (ID) Optional

Code identifying the type of identification number of Depository Financial Institution (DFI)

- BPR12 and BPR13 relate to the receiving depository financial institution (RDFI).

Usage notes

- BPR12 THROUGH BPR15 relate to the receiver's bank account.

01 ABA Transit Routing Number Including Check Digits (9 digits)

- ☐ ABA is a unique number identifying every bank in the United States.

02 Swift Identification (8 or 11 characters)

- ☐ See Code Source 327: Society for Worldwide Interbank Financial Telecommunication (SWIFT).

04 Canadian Bank Branch and Institution Number

BPR-13

507 Receiving Depository Financial Institution (DFI) Identifier

Min 3 Max 12 String (AN) Optional

Depository Financial Institution (DFI) identification number

Usage notes

- This is the identifying number of the Receiving Depository Financial Institution receiving the transaction into the ACH network.

BPR-14

569 Account Number Qualifier

Identifier (ID) Optional

Code indicating the type of account

- BPR14 is a code identifying the type of bank account or other financial asset.

Usage notes

- BPR14 identifies the type of account in BPR15.

DA Demand Deposit

SG Savings

BPR-15

508 Receiver Bank Account Number

Min 1 Max 35 String (AN) Optional

Account number assigned

- BPR15 is the account number of the receiving company to be debited or credited with the payment order.

Usage notes

- This is the premium receiver's bank account at the Receiving Depository Financial Institution.

BPR-16

373 Check Issue or EFT Effective Date

CCYYMMDD format Date (DT) Required

Date expressed as CCYYMMDD where CC represents the first two digits of the calendar year

- BPR16 is the date the originating company intends for the transaction to be settled (i.e., Payment Effective Date).

Usage notes

- For check payment, this data element specifies the check issuance date.
- For payments other than check this data element specifies the date the originator (premium payer) intends to provide funds to the receiver (premium receiver).
- When the remittance detail contained in this transaction results in a Total Payment Amount (BPR02) of \$0.00, the date reported here must equal the date the remittance was created.

Reassociation Trace Number

To uniquely identify a transaction to an application

Usage notes

- The purpose of this segment is to uniquely identify this transaction set and aid in reassociating payment and remittance data that have been separated. See section 1.10.2.4 for more information.

Example

TRN*3*XX~

TRN-01

481 Trace Type Code

Identifier (ID)

Required

Code identifying which transaction is being referenced

- 3 Financial Reassociation Trace Number
- ☐ The payment and remittance information have been separated and need to be reassociated by the receiver.

TRN-02

127 Check or EFT Trace Number

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- TRN02 provides unique identification for the transaction.

Usage notes

- This number must be unique within the sender/receiver relationship. The number is assigned by the sender.
If payment is made by check, this must be the check number.
If payment is made by EFT, this is the payer assigned reference number for this payment, to be passed through the EFT clearing system to the payment receiver (This is NOT the ACH Trace number assigned by the originating depository financial institution).
If this is a non-payment 820, this must be a unique remittance advice identification number.
- This field is used to reassociate the payment and remittance information.

Exchange Assigned Qualified Health Plan Identifier

To specify identifying information

Usage notes

- Required when an exchange assigned QHP identifier was provided in the 834 enrollment transaction and all enrollees within this transaction apply to a single QHP. If not required by this implementation guide, do not send.

Example

REF*38*X~

Variants (all may be used)

- REF Issuer Assigned Qualified Health Plan Identifier
- REF Exchange Assigned Employer Group Identifier
- REF Issuer Assigned Employer Group Identifier

REF-01

128

Reference Identification Qualifier

■ Identifier (ID)

Required

Code qualifying the Reference Identification

38 Master Policy Number

REF-02

127

Exchange Assigned Qualified Health Plan Identifier

Min 1Max 50

■ String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Issuer Assigned Qualified Health Plan Identifier

To specify identifying information

Usage notes

- Required when all enrollees within this transaction apply to a single QHP and the Issuer Assigned QHP Identifier is known to the submitter. If not required by this implementation guide, do not send.

Example

REF*TV*X~

Variants (all may be used)

- REF Exchange Assigned Qualified Health Plan Identifier
- REF Exchange Assigned Employer Group Identifier
- REF Issuer Assigned Employer Group Identifier

REF-01

128 Reference Identification Qualifier

■ Identifier (ID)

Required

Code qualifying the Reference Identification

TV Line of Business

REF-02

127 Issuer Assigned Qualified Health Plan Identifier

Min 1 Max 50 ■ String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Exchange Assigned Employer Group Identifier

To specify identifying information

Usage notes

- Required when an exchange assigned employer group identifier was provided in the 834 enrollment transaction and all enrollees within this transaction apply to a single employer group. If not required by this implementation guide, do not send.

Example

REF*18*X~

Variants (all may be used)

REF Exchange Assigned Qualified Health Plan Identifier

REF Issuer Assigned Qualified Health Plan Identifier

REF Issuer Assigned Employer Group Identifier

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
18 Plan Number			

REF-02	127 Exchange Assigned Employer Group Identifier	Min 1	Max 50	String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier					

Issuer Assigned Employer Group Identifier

To specify identifying information

Usage notes

- Required when:

all enrollees within this transaction apply to a single employer group, the issuer has assigned an identifier to that employer group, and the identifier is known to the submitter.

If not required by this implementation guide, do not send.

Example

REF*1L*X~

Variants (all may be used)

REF Exchange Assigned Qualified Health Plan Identifier

REF Issuer Assigned Qualified Health Plan Identifier

REF Exchange Assigned Employer Group Identifier

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
1L Group or Policy Number			
REF-02	127 Issuer Assigned Employer Group Identifier	Min 1Max 50String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

1000A Payee Name Loop

Max 1 Required

Variants (all may be used)
Payer's Name Loop

N1 0700 Heading > Payee Name Loop > N1

Max use 1 Required

Payee Name

To identify a party by type of organization, name, and code

Example
N1*PE*XXXX*FI*XXXXXXX~

N1-01	98 Entity Identifier Code	Identifier (ID)	Required
	Code identifying an organizational entity, a physical location, property or an individual		
	PE Payee		
N1-02	93 Payee Organization Name	Min 1Max 60String (AN)	Required
	Free-form name		
N1-03	66 Identification Code Qualifier	Identifier (ID)	Required
	Code designating the system/method of code structure used for Identification Code (67)		
	FI Federal Taxpayer's Identification Number		
N1-04	67 Payee's Tax Identification Number	Min 2Max 80String (AN)	Required
	Code identifying a party or other code		
	This segment, used alone, provides the most efficient method of providing organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party.		

Unique Health Plan Identifier

To specify identifying information

Usage notes

- Required when the Payee has obtained a Unique Health Plan Identifier and that identifier is known to the submitter. If not required by this implementation guide, do not send.

Example

REF*ABY*XXX~

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
ABY Centers for Medicare and Medicaid Services PlanID			
REF-02	127 Unique Health Plan Identifier	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

1000B Payer's Name Loop

Max 1 Required

Variants (all may be used)
Payee Name Loop

N1 0700 Heading > Payer's Name Loop > N1

Max use 1 Required

Payer's Name

To identify a party by type of organization, name, and code

Usage notes

- The "payer" in the context of this transaction is not the health plan. The payer is the entity making payment to the plan. This will be either a government entity (HHS, IRS, etc) or a Health Insurance Exchange.

Example

N1*RM*XX*58*XXXXXX~

N1-01 98 Entity Identifier Code Identifier (ID) Required

Code identifying an organizational entity, a physical location, property or an individual

RM Party that remits payment

N1-02 93 Payer Name Min 1 Max 60 String (AN) Required

Free-form name

N1-03 66 Identification Code Qualifier Identifier (ID) Required

Code designating the system/method of code structure used for Identification Code (67)

58 Originating Company Number

N1-04 67 Payer Identifier Min 2 Max 80 String (AN) Required

Code identifying a party or other code

- This segment, used alone, provides the most efficient method of providing organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party.

Usage notes

- The identifier reported here identifies the government agency or Health Insurance Exchange making the payment. Its value is established by trading partner agreement.

Payer's Administrative Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required when specified by the terms of the trading partner agreement. If not required by this implementation guide, do not send.
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC, where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. For example, (534)224-2525 would be represented as 5342242525.

Example

PER*IC*XXX*TE*XXX*EX*XXXX*TE*XXXXXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required
- If either Communication Number Qualifier (PER-07) or Communication Number (PER-08) is present, then the other is required

PER-01	366 Contact Function Code	Identifier (ID)	Required
Code identifying the major duty or responsibility of the person or group named			
IC Information Contact			
PER-02	93 Premium Payer Contact Name	Min 1 Max 60 String (AN)	Required
Free-form name			
PER-03	365 Communication Number Qualifier	Identifier (ID)	Required
Code identifying the type of communication number			
EM Electronic Mail			
FX Facsimile			
TE Telephone			
PER-04	364 Communication Number	Min 1 Max 256 String (AN)	Required
Complete communications number including country or area code when applicable			
PER-05	365 Communication Number Qualifier	Identifier (ID)	Optional
Code identifying the type of communication number			
EM Electronic Mail			
EX Telephone Extension			
☐ When used, the value following this code is the extension for the preceding communications contact number.			
FX Facsimile			
TE Telephone			
PER-06	364 Communication Number	Min 1 Max 256 String (AN)	Optional
Complete communications number including country or area code when applicable			
PER-07	365 Communication Number Qualifier	Identifier (ID)	Optional
Code identifying the type of communication number			
EM Electronic Mail			

- EX** Telephone Extension
 - ☐ When used, the value following this code is the extension for the preceding communications contact number.
- FX** Facsimile
- TE** Telephone

PER-08

364 Communication Number

Min 1

Max 256

 String (AN)

Optional

Complete communications number including country or area code when applicable

1000B Payer's Name Loop end

Heading end

Detail

2000 Remittance Information Loop

Max >1 Required

ENT 0100 Detail > Remittance Information Loop > ENT

Max use 1 Required

Remittance Information

To designate the entities which are parties to a transaction and specify a reference meaningful to those entities

Usage notes

- Each iteration of the ENT loop represents an identifiable detail payment and or adjustment(s). The detail payment or adjustment may be specific to an individual or represent an aggregate to the issuer.;Examples of individual specific detail payments include: premium payments, advance tax credit payments, advance cost share payments, etc.

Examples of detail payments or adjustments that are not individual include: risk adjustments, reinsurance, tax liens, etc.

When reporting a detail payment or adjustment that is not specific to an individual, Loop ID 2100 (Individual Name) is not used.

Example

ENT*0000~

ENT-01 554 Assigned Number

Min 1 Max 6 # Numeric (NO) Required

Number assigned for differentiation within a transaction set

Usage notes

- The first ENT01 within each ST-SE envelope must begin with "1", and be incremented by one each time an ENT is used in the transaction.

Individual Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when the payment and/or adjustment amounts within this iteration of Loop ID 2000 are attributed to a specific individual. If not required by this implementation guide, do not send.

Example

NM1*IL*1*XXXX*XXXXX*XXX*XXXXXX*XX*C1*XXXXXX~

NM1-01	98 Entity Identifier Code	Identifier (ID)	Required
Code identifying an organizational entity, a physical location, property or an individual			
IL Insured or Subscriber			
NM1-02	1065 Entity Type Qualifier	Identifier (ID)	Required
Code qualifying the type of entity			
• NM102 qualifies NM103.			
1 Person			
NM1-03	1035 Individual Last Name	Min 1Max 60String (AN)	Optional
Individual last name or organizational name			
NM1-04	1036 Individual First Name	Min 1Max 35String (AN)	Optional
Individual first name			
NM1-05	1037 Individual Middle Name	Min 1Max 25String (AN)	Optional
Individual middle name or initial			
NM1-06	1038 Individual Name Prefix	Min 1Max 10String (AN)	Optional
Prefix to individual name			
NM1-07	1039 Individual Name Suffix	Min 1Max 10String (AN)	Optional
Suffix to individual name			
NM1-08	66 Identification Code Qualifier	Identifier (ID)	Required
Code designating the system/method of code structure used for Identification Code (67)			
C1 Insured or Subscriber			
NM1-09	67 Exchange Assigned Subscriber Identifier	Min 2Max 80String (AN)	Required
Code identifying a party or other code			
Usage notes			

- This is the subscriber's Exchange assigned identifier.

Exchange Assigned Qualified Health Plan Identifier

To specify identifying information

Usage notes

- Required when the header level Exchange Assigned QHP Identifier segment is not used and an exchange assigned QHP identifier was provided to the issuer in the 834. If not required by this implementation guide, do not send.

Example

REF*38*XXXX~

Variants (all may be used)

- REF Issuer Assigned Qualified Health Plan Identifier
- REF Exchange Assigned Employer Group Identifier
- REF Issuer Assigned Employer Group Identifier
- REF Exchange Assigned Policy Identifier
- REF Issuer Assigned Policy Identifier
- REF Exchange Assigned APTC Contributor/Tax Payer Identifier
- REF Issuer Assigned APTC Contributor/Tax Payer Identifier
- REF Exchange Assigned Dependent Identifier
- REF Issuer Assigned Dependent Identifier
- REF Issuer Assigned Subscriber Identifier

REF-01

128Reference Identification Qualifier

Identifier (ID)Required

Code qualifying the Reference Identification

38Master Policy Number

REF-02

127Exchange Assigned Qualified Health Plan Identifier

Min 1Max 50String (AN)Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Issuer Assigned Qualified Health Plan Identifier

To specify identifying information

Usage notes

- Required when the Issuer Assigned QHP segment in the header is not used, and the Issuer Assigned QHP Identifier is known by the submitter.

If not required by this implementation guide, do not send.

Example

REF*TV*XXXXX~

Variants (all may be used)

- REF Exchange Assigned Qualified Health Plan Identifier
- REF Exchange Assigned Employer Group Identifier
- REF Issuer Assigned Employer Group Identifier
- REF Exchange Assigned Policy Identifier
- REF Issuer Assigned Policy Identifier
- REF Exchange Assigned APTC Contributor/Tax Payer Identifier
- REF Issuer Assigned APTC Contributor/Tax Payer Identifier
- REF Exchange Assigned Dependent Identifier
- REF Issuer Assigned Dependent Identifier
- REF Issuer Assigned Subscriber Identifier

REF-01

128 Reference Identification Qualifier

Code qualifying the Reference Identification

TV Line of Business

Identifier (ID)

Required

REF-02

127 Issuer Assigned Qualified Health Plan Identifier

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Min 1 Max 50 String (AN)

Required

Exchange Assigned Employer Group Identifier

To specify identifying information

Usage notes

- Required when the enrollment is from a SHOP exchange and the header exchange assigned employer group segment is not used. If not required by this implementation guide, do not send.

Example

REF*18*XXXX~

Variants (all may be used)

- REFExchange Assigned Qualified Health Plan Identifier
- REFIssuer Assigned Qualified Health Plan Identifier
- REFIssuer Assigned Employer Group Identifier
- REFExchange Assigned Policy Identifier
- REFIssuer Assigned Policy Identifier
- REFExchange Assigned APTC Contributor/Tax Payer Identifier
- REFIssuer Assigned APTC Contributor/Tax Payer Identifier
- REFExchange Assigned Dependent Identifier
- REFIssuer Assigned Dependent Identifier
- REFIssuer Assigned Subscriber Identifier

REF-01128Reference Identification Qualifier

Identifier (ID)Required

Code qualifying the Reference Identification

18Plan Number

REF-02127Exchange Assigned Employer Group Identifier

Min 1Max 50String (AN)Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Issuer Assigned Employer Group Identifier

To specify identifying information

Usage notes

- Required when:

the enrollment is from a SHOP exchange,
the header issuer assigned employer group segment is not used,
the issuer has assigned an identifier to that employer group,
and the identifier is known to the submitter.

If not required by this implementation guide, do not send.

Example

REF*1L*XXXX~

Variants (all may be used)

REF Exchange Assigned Qualified Health Plan Identifier

REF Issuer Assigned Qualified Health Plan Identifier

REF Exchange Assigned Employer Group Identifier

REF Exchange Assigned Policy Identifier

REF Issuer Assigned Policy Identifier

REF Exchange Assigned APTC Contributor/Tax Payer Identifier

REF Issuer Assigned APTC Contributor/Tax Payer Identifier

REF Exchange Assigned Dependent Identifier

REF Issuer Assigned Dependent Identifier

REF Issuer Assigned Subscriber Identifier

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

1L Group or Policy Number

REF-02

127 Issuer Assigned Employer Group Identifier

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the
Reference Identification Qualifier

Exchange Assigned Policy Identifier

To specify identifying information

Usage notes

- For the purposes of this implementation, policy is defined as the collective of enrollees constituting a family unit or household.

Example

REF *POL *X~

Variants (all may be used)

REF Exchange Assigned Qualified Health Plan Identifier

REF Issuer Assigned Qualified Health Plan Identifier

REF Exchange Assigned Employer Group Identifier

REF Issuer Assigned Employer Group Identifier

REF Issuer Assigned Policy Identifier

REF Exchange Assigned APTC Contributor/Tax Payer Identifier

REF Issuer Assigned APTC Contributor/Tax Payer Identifier

REF Exchange Assigned Dependent Identifier

REF Issuer Assigned Dependent Identifier

REF Issuer Assigned Subscriber Identifier

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

POL Policy Number

REF-02

127 Exchange Assigned Policy Identifier

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Issuer Assigned Policy Identifier

To specify identifying information

Usage notes

- Required when known by the submitter. If not required by this implementation guide, do not send.

Example

REF*AZ*XXXX~

Variants (all may be used)

- REF Exchange Assigned Qualified Health Plan Identifier
- REF Issuer Assigned Qualified Health Plan Identifier
- REF Exchange Assigned Employer Group Identifier
- REF Issuer Assigned Employer Group Identifier
- REF Exchange Assigned Policy Identifier
- REF Exchange Assigned APTC Contributor/Tax Payer Identifier
- REF Issuer Assigned APTC Contributor/Tax Payer Identifier
- REF Exchange Assigned Dependent Identifier
- REF Issuer Assigned Dependent Identifier
- REF Issuer Assigned Subscriber Identifier

REF-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

AZ Health Insurance Policy Number

REF-02

127

Issuer Assigned Policy Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Exchange Assigned APTC Contributor/Tax Payer Identifier

To specify identifying information

Usage notes

- Required when:

an exchange has assigned an identifier to an APTC contributor/Tax Payer, who is not the subscriber or a dependent of the policy, for which this payment is directed,
AND
the exchange/government agency manages payment information to this level of granularity,
AND
the identifier is permitted for use under applicable regulation.

If not required by this implementation guide, do not send.

Example

REF*4A*XXXX~

Variants (all may be used)

- REF Exchange Assigned Qualified Health Plan Identifier
- REF Issuer Assigned Qualified Health Plan Identifier
- REF Exchange Assigned Employer Group Identifier
- REF Issuer Assigned Employer Group Identifier
- REF Exchange Assigned Policy Identifier
- REF Issuer Assigned Policy Identifier
- REF Issuer Assigned APTC Contributor/Tax Payer Identifier
- REF Exchange Assigned Dependent Identifier
- REF Issuer Assigned Dependent Identifier
- REF Issuer Assigned Subscriber Identifier

REF-01

128 Reference Identification Qualifier

Code qualifying the Reference Identification

4A Personal Identification Number (PIN)

Identifier (ID)

Required

REF-02

127 Exchange Assigned APTC Contributor/Tax Payer Identifier

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Issuer Assigned APTC Contributor/Tax Payer Identifier

To specify identifying information

Usage notes

- Required when:

the issuer has assigned an identifier to an APTC contributor/Tax Payer who is not the subscriber or a dependent of the policy for which this payment is directed,
AND
that identifier has been made known to the submitter,
AND
the exchange/government agency manages payment information to this level of granularity.

If not required by this implementation guide, do not send.

Example

REF*23*XX~

Variants (all may be used)

- REF Exchange Assigned Qualified Health Plan Identifier
- REF Issuer Assigned Qualified Health Plan Identifier
- REF Exchange Assigned Employer Group Identifier
- REF Issuer Assigned Employer Group Identifier
- REF Exchange Assigned Policy Identifier
- REF Issuer Assigned Policy Identifier
- REF Exchange Assigned APTC Contributor/Tax Payer Identifier
- REF Exchange Assigned Dependent Identifier
- REF Issuer Assigned Dependent Identifier
- REF Issuer Assigned Subscriber Identifier

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	23 Client Number		

REF-02	127 Issuer Assigned APTC Contributor/Tax Payer Identifier	Min 1	Max 50	String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier				

Exchange Assigned Dependent Identifier

To specify identifying information

Usage notes

- Required when the associated payment for a subscriber policy is not directly attributable to the subscriber.

If not required by this implementation guide, do not send.

- An example of when this would be used is as follows. When dependents of a policy file taxes separately from the subscriber, it is possible they may be eligible for an Advance payment of the Premium Tax Credit (APTC) separate from, and in addition to, any APTC of which the subscriber may qualify.

Example

REF*60*XXXXX~

Variants (all may be used)

REF Exchange Assigned Qualified Health Plan Identifier

REF Issuer Assigned Qualified Health Plan Identifier

REF Exchange Assigned Employer Group Identifier

REF Issuer Assigned Employer Group Identifier

REF Exchange Assigned Policy Identifier

REF Issuer Assigned Policy Identifier

REF Exchange Assigned APTC Contributor/Tax Payer Identifier

REF Issuer Assigned APTC Contributor/Tax Payer Identifier

REF Issuer Assigned Dependent Identifier

REF Issuer Assigned Subscriber Identifier

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

60 Cross Reference Number

REF-02

127 Exchange Assigned Dependent Identifier

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Issuer Assigned Dependent Identifier

To specify identifying information

Usage notes

- An example of when this would be used is as follows. When dependents of a policy file taxes separately from the subscriber, it is possible they may be eligible for an Advance payment of the Premium Tax Credit (APTC) separate from, and in addition to, any APTC of which the subscriber may qualify.
- Required when the associated payment for a subscriber policy is not directly attributable to the subscriber AND the issuer assigned identifier is known by the payer.

If not required by this implementation guide, do not send.

Example

REF*1W*X~

Variants (all may be used)

REF Exchange Assigned Qualified Health Plan Identifier

REF Issuer Assigned Qualified Health Plan Identifier

REF Exchange Assigned Employer Group Identifier

REF Issuer Assigned Employer Group Identifier

REF Exchange Assigned Policy Identifier

REF Issuer Assigned Policy Identifier

REF Exchange Assigned APTC Contributor/Tax Payer Identifier

REF Issuer Assigned APTC Contributor/Tax Payer Identifier

REF Exchange Assigned Dependent Identifier

REF Issuer Assigned Subscriber Identifier

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

1W Member Identification Number

REF-02

127 Issuer Assigned Dependent Identifier

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Issuer Assigned Subscriber Identifier

To specify identifying information

Usage notes

- Required when the issuer assigned subscriber number is known to the payer.

If not required by this implementation guide, do not send.

Example

REF*0F*X~

Variants (all may be used)

REF Exchange Assigned Qualified Health Plan Identifier

REF Issuer Assigned Qualified Health Plan Identifier

REF Exchange Assigned Employer Group Identifier

REF Issuer Assigned Employer Group Identifier

REF Exchange Assigned Policy Identifier

REF Issuer Assigned Policy Identifier

REF Exchange Assigned APTC Contributor/Tax Payer Identifier

REF Issuer Assigned APTC Contributor/Tax Payer Identifier

REF Exchange Assigned Dependent Identifier

REF Issuer Assigned Dependent Identifier

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

0F Subscriber Number

REF-02

127 Issuer Assigned Subscriber Identifier

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Remittance Detail

To specify the accounts receivable open item(s) to be included in the cash application and to convey the appropriate detail

Usage notes

- Relays detailed health insurance exchange-related remittance information.

Example

RMR*ZZ*XXXXX**00000000~

RMR-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- Parties using this segment should agree on the content of RMR01 and RMR02 prior to initiating communication.

ZZ Mutually Defined

Exchange-Payment Type

RMR-02

127 Exchange Payment Type

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- This code identifies the type or purpose for the payment amount identified in RMR04.

Codification and Definitions can be found on the CMS Health Insurance Exchange web site.

RMR-04

782 Payment Amount

Min 1 Max 15 # Decimal number (R)

Required

Monetary amount

- RMR04 is the amount paid.

Usage notes

- The Payment Amount must be greater than or less than zero. Zero "0" is not an acceptable value for this element.
- This is the amount being paid on this remittance item.

Exchange Report Document Control Number

To specify identifying information

Usage notes

- Required when the Exchange needs to provide supporting documentation pertaining to this payment.

If not required by this implementation guide, do not send.

Example

REF*0N*XX*XXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

0N Attached To

REF-02

127 Exchange-related Report Type

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- This element defines the type of report being described. Examples include Risk Adjustment Supporting Documentation, Reinsurance Supporting Documentation, etc. Codification and Definitions can be found on the CMS Health Insurance Exchange web site.

REF-03

352 Exchange Report Document Control Number

Min 1

Max 80

String (AN)

Required

A free-form description to clarify the related data elements and their content

Usage notes

- This is the Document Control Number assigned to the supplemental report which details how the payment amount reported in RMR04 was calculated.

Individual Coverage Period

To specify pertinent dates and times

Usage notes

- This segment relays the start and end dates related to the payment reported in the RMR segment.

Example

DTM*582*****RD8*XX~

DTM-01	374 Date Time Qualifier	Identifier (ID)	Required
Code specifying type of date or time, or both date and time			
582 Report Period			
DTM-05	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
Code indicating the date format, time format, or date and time format			
RD8 Range of Dates Expressed in Format CCYYMMDD-CCYYMMDD			
DTM-06	1251 Coverage Period	Min 1Max 35String (AN)	Required
Expression of a date, a time, or range of dates, times or dates and times			

2300 Remittance Detail Loop end

2000 Remittance Information Loop end

Detail end

Summary

SE

0100 Summary > SE

Max use 1 Required

Transaction Set Trailer

To indicate the end of the transaction set and provide the count of the transmitted segments (including the beginning (ST) and ending (SE) segments)

Example

SE*00*0001~

SE-01	96 Transaction Segment Count	Min 1	Max 10	# Numeric (N0)	Required
-------	------------------------------	-------	--------	----------------	----------

Total number of segments included in a transaction set including ST and SE segments

SE-02	329 Transaction Set Control Number	Min 4	Max 9	# Numeric (N)	Required
-------	------------------------------------	-------	-------	---------------	----------

Identifying control number that must be unique within the transaction set functional group assigned by the originator for a transaction set

Summary end

Functional Group Trailer

To indicate the end of a functional group and to provide control information

Example

GE*000000*0000~

<u>GE-01</u>	97 Number of Transaction Sets Included	Min 1	Max 6	# Numeric (N0)	Required
Total number of transaction sets included in the functional group or interchange (transmission) group terminated by the trailer containing this data element					
<u>GE-02</u>	28 Group Control Number	Min 1	Max 9	# Numeric (N0)	Required
Assigned number originated and maintained by the sender					

Interchange Control Trailer

To define the end of an interchange of zero or more functional groups and interchange-related control segments

Example

IEA*00*00000000~

<u>IEA-01</u>	I16 Number of Included Functional Groups	Min 1	Max 5	# Numeric (N0)	Required
A count of the number of functional groups included in an interchange					
<u>IEA-02</u>	I12 Interchange Control Number	Min 9	Max 9	# Numeric (N0)	Required
A control number assigned by the interchange sender
